SPECIAL SPRING CLOSE-OUT BARGAIN SALE!!!

EARLY ORDERING NECESSARY - PLACE YOUR ORDER AT ONCE!!!

EXTRA CHOICE JAPANESE AND SIBERIAN IRIS, DAYLILIES, RED LOUISIANA IRIS, PHLOX, &c.

STOCK MUST BE MOVED AT ONCE! MANY VARIETIES WILL BE INCLUDED THAT ORIGINALLY SOLD AT \$5.00 TO \$50.00 PER PLANT. ALL UP TO DATE VARIETIES. NO FINER PLANTS ARE GROWN THAN THOSE I WILL SEND ON THESE COLLECTIONS. ALL ORDERS POSTPAID OR EXPRESS PREPAID - CULTURAL DIRECTIONS INCLUDED.

I have never before had a spring sale and an unusual circumstance brings it about now. Last year I bought a new 110 acre farm, about which you will hear more at a later date. This spring my entire stock of Japanese and Siberian Iris, Day-lilies, Phlox and other items included in this special bargain sale, are being moved to this new farm for propagation. I will have a large surplus over the quantity required for that purpose, therefore THIS IS YOUR OPPORTUNITY TO OBTAIN EXTRA CHOICE PLANTS FROM THE WORLD'S MOST FAMOUS IRIS GARDENS AT UNUSUAL BARGAIN PRICES. ALL WILL BE STRONG, HEAVY ROOTED, FLOWERING SIZE PLANTS, IN VARIETIES THAT ARE AS HARDY AS AN OAK.

In the Japanese Iris some of the Rare, New and Unusual varieties will be included. They are the most showy of all Iris and extend the flowering season by flowering after the other Iris have finished blooming. The Siberian Iris Collection will contain some of the finest varieties obtainable anywhere in the world at any price. An established plant often produces 50 flower stalks at one time, with a hundred or more flowers open together. The Daylilies will be the newer Hybrids, in varying flowering seasons from May to September, each plant different. The Red Louisiana Iris are a great rarity, in unusual copper-red tones. I sell them separately, in special color selections at \$1.50 to \$3.50 for a single plant. The Improved Iris Kaempferi is a Super-improvement on the original type, a prodigious bloomer, with the longest flowering season of any Iris and one of the most showy garden Iris we have. The Phlox will contain a superb assortment of colors. They flower at a time when flowers are most scarce in the garden. While the individual plants will not be labelled, each group will have one label for identification of the group.
